

## Digium TDM2400P Break-out Box w/Cable

The 2400P Cable Bundle includes a 6-foot long, 25-pair amphenol cable with one standard end for connecting to the patch panel and one straight end for connecting to the 2400p card.

The break-out box is a standard 25-pair box (only 24 used by the 2400p) that is surface mountable.

Also available with a 1U rack-mountable patch panel.
